Von Ryan Sumague

Student Name

Week No.: 13

Eastvantage Business Solutions, Inc.

Company Name

June 27-July 1, 2022

Inclusive Dates

Tasks Done this week:

- CRUD for KPI Report
- Make a page for client list
- DPA Webinar Tick Update

New Skill/s Acquired This Week:

- Learn how to use cookies for popup

Your major accomplishments this week: (Provide a detailed description of the tasks involved in each accomplishment.)

TASK/S	ACCOMPLISHMENTS
<ul style="list-style-type: none">CRUD for KPI Report	<ul style="list-style-type: none">In EVOX We were able to add a CRUD function for KPI Report. My task is to make a table for list of KPI. I add an action where admin can view the report, and delete the report.
<ul style="list-style-type: none">Make a page for client list	<ul style="list-style-type: none">Just like an employee list page, my task is to make a page for client list. Where there is also a filter for it. I used a data table for easy sorting of column.
<ul style="list-style-type: none">DPA Webinar Tick Update	<ul style="list-style-type: none">I was assigned to add a feature where the system updates the tick of the DPA Webinar. When the year in the database and current year are not matched, it will show a popup of notification for DPA.

Problem Encountered this week:

- I don't have an idea how the popup works

Ways done to overcome or solve those problems:

- I asked my Co-Dev how he did the pop up

List one or two goals you set for yourself next week:

- Able to add the popup function in dashboard for DPA Update
