TASK/S	ACCOMPLISHMENTS
<ul style="list-style-type: none">Able to code with company website	<ul style="list-style-type: none">We had our meeting and our Project Manager assigned us a task. In my part, I was tasked to apply CRUD Function to a static part in Dashboard.
<ul style="list-style-type: none">Setup environment for coding and cloning a project with Git	<ul style="list-style-type: none">We were able to clone the company website in our devices using git clone. We used Filezilla to get the database and I learned how to import this database with the shell in XAMPP
<ul style="list-style-type: none">Use CRUD functions to the task given to me.	<ul style="list-style-type: none">I was able to Create a Job Item, display it on a table and in the dashboard, update/edit the job and able to delete it. It has authenticator where admin only can edit it.
Problem Encountered this week: <ul style="list-style-type: none">Just a minor struggle with CRUD. There are some codes that I just missed.	
Ways done to overcome or solve those problems: <ul style="list-style-type: none">Watched video tutorials and read some in google.	
List one or two goals you set for yourself next week: <ul style="list-style-type: none">Familiarize with how my co-developers code and familiarize how the website works.
