- Tutorial in Git with our Co-Developer

New Skill/s Acquired This Week:

- Learn some git knowledge

Your major accomplishments this week: (Provide a detailed description of the tasks involved in each accomplishment.)

TASK/S	ACCOMPLISHMENTS
<ul style="list-style-type: none"><li>Fix the filter in the dashboard</li></ul>	<ul style="list-style-type: none"><li>We finished fixing the filter in the dashboard, there's one line in API call we just missed which is the param. After adding a code, it works</li></ul>
<ul style="list-style-type: none"><li>Display "No Record" if there's no data based on filter in NEO</li></ul>	<ul style="list-style-type: none"><li>After finishing the filter, there's an error occurred when there's no data to show. I fixed this problem in the backend. I just add an initiation to the array.</li></ul>
<ul style="list-style-type: none"><li>Tutorial in Git with our Co-Developer</li></ul>	<ul style="list-style-type: none"><li>Since we need some columns to migrate in our local, and we don't know how to merge our branches, we had our tutorial session with our Co-Dev.</li></ul>

Problem Encountered this week:

- Migration on our local environment

Ways done to overcome or solve those problems:

- We had our tutorial session with our Co-Dev

List one or two goals you set for yourself next week:

- Migrate and add filters in the dashboard
